Foundation History-Jon's Story

After a 10-year struggle, my younger brother, Steven, lost his battle against drugs. In 1988, he died of a cocaine overdose in the back seat of a police car. Steven left behind a beautiful five year- old daughter, a loving wife, and his family.

In 1994, my older brother, Eric, committed suicide. For 10 years, he suffered from a severe case of depression. Doctors say that Eric's depression - and death - was very likely linked to his long-term drug use that began in high school.

Following the loss of my brothers, I realized that they might have steered clear of drugs had they seen and heard how drugs would affect their lives - and how the devastating effects of drugs would end their lives. After thoughtful discussion and consultation with education and drug experts, we decided to start the Sundt Memorial Foundation because we believed we could make lasting change in the lives of kids.

We incorporated as a 501 (c)(3) nonprofit organization in 1994 with a mission to influence the hearts and minds of kids by inspiring them to choose a natural high and reject drugs. Over the last 14 years we have touched the lives of millions of kids in our own community and across the country.

Through the Natural High® DVD series, we are changing lives.
